

**CLAIMS:**

1. A method of making a decorative arrangement comprising  
providing a wet foam,  
partially curing said wet foam to create a nodule,  
shaping said nodule, and  
securing a plurality of decorative elements to said nodule, and  
subsequently drying said nodule to convert it to rigid foam.
2. The method of claim 1 including  
making said decorative arrangement by sequentially applying portions  
of at least some of said decorative elements to said nodule prior to complete  
drying said nodule.
3. The method of claim 1 including  
placing said wet foam at least in part on a film having a release surface  
to which said foam will not bind.
4. The method of claim 1 including  
effecting said securing of said decorative elements by securing at least  
a portion thereof to the surface of said nodule.
5. The method of claim 4 including  
wetting said foam prior to said partial curing.
6. The method of claim 4 including  
securing said wet foam to a support structure.
7. The method of claim 6 including  
providing said wet foam at least in part on said support structure.
8. The method of claim 7 including  
wetting said nodule prior to said subsequent drying.
9. The method of claim 4 including  
employing as at least some of said decorative elements at least one  
item from the group consisting of live vegetation, dry vegetation, and artificial  
vegetation.
10. The method of claim 8 including  
making a wreath as said decorative arrangement.

11. The method of claim 4 including  
making a swag as said decorative arrangement foam.
12. The method of claim 1 including  
employing as said wet foam a foam which when dry will be a rigid.
13. The method of claim 12 including  
employing as said wet foam a foam selected from the group consisting  
of polyurethane foam and latex foam.
14. The method of claim 12 including  
dispensing said wet foam from an aerosol container.
15. The method of claim 14 including  
drying said wet foam at a temperature of about 60°F to 100°F for at  
least 30 minutes.
16. The method of claim 6 including  
employing a rigid foam as said support structure.
17. The method of claim 6 including  
employing a container as said support structure.
18. The method of claim 1 including  
employing additional ornaments in said decorative assembly.
19. The method of claim 1 including  
after applying said decorative elements to said wet foam providing  
additional wet foam and applying additional decorative elements thereto.
20. The method of claim 19 including  
providing said additional foam after the first applied wet foam has at  
least partially dried to become rigid foam.
21. The method of claim 1 including  
establishing depressed portions within the surface of said nodule
22. The method of claim 1 including  
positioning said nodule within said decorative arrangement so as to  
retain said nodule in a readily visible position.
23. The method of claim 1 including  
painting portions of the exterior of said nodule.
